cat and dog calculations

Now the multiplication facts for the 5 times table

A matching exercise where children connect multiplication problems on cats to their answers on dogs. The cats and dogs are arranged in two columns, connected by dotted lines. Each cat has a multiplication problem, and each dog has a blank box for the answer.

Cat Multiplication Problem	Dog Answer Box
3×5	
5×5	
9×5	
1×5	
7×5	
2×5	
6×5	
11×5	
8×5	
4×5	
10×5	
12×5	

Teacher's notes

Children look at the multiplication problem on each cat and write the answer on the dog that it
